

Dear Parents,

I am sure you are taking all the necessary precautions and keeping safe. We need to realise that even after the lockdown is lifted, the precautionary measures need to be continued. I pray to the Divine Mother that you and our children are protected.

There is some information I would like to share with you. I need your support to go forward. As you know, we have already started our online communication with you and we are working on strengthening it every passing day. I am overwhelmed by the amount of appreciation we have received from you for our efforts. On behalf of the ANS family, I thank you for that.

There has been a huge change in our infrastructure in the last few years involving substantial financial outlays. We are still in the process of completion which will involve a lot of financial expenses even in this financial year. Our financial position is not tenable without fees coming in as envisaged.

However, given the pandemic and the ensuing financial burden on you, we have decided to rework our fees from May 2020 to March 2021. In the process, each member of our family will share the financial burden. I join you in thanking them for this sacrifice.

On the other hand, we would urge you to pay your fees on time so that we can honour our financial commitments.

I am sure we will be able to tide over this crisis hand-in-hand.

Stay safe and happy.

Sumitra Mitter
